

Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

- 10 minutes to prepare
- I hour to collaborate
- 2-8 people recommended

Share template feedback

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

10 minutes

- Team gathering
 Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.
- Set the goal
 Think about the problem you'll be focusing on solving in the brainstorming session.
- Learn how to use the facilitation tools
 Use the Facilitation Superpowers to run a happy and productive session.

Open article

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

→ 5 minutes

software will be updated if there is new disease diagnoised results will be updated to doctor and patient automatically

remainder
will sent to
patients for
their
checkups

K

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. In the last 10 minutes, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you and break it up into smaller sub-groups.

• 20 minutes

TIP

Add customizable tags to sticky notes to make it easier to find, browse, organize, and categorize important ideas as themes within your mural.

Alerts

of
medications
available and
alerting if not

Alert message
will be send to
the patients
when the
doctor won't
attend

Alert
ambulance in
the times of
emergency

UPDATES

Update the user information frequently

diagnoised results will be updated to doctor and patient automatically

If any discrepencies is noted from the data notifications is being sent

Security

All information of the user will be safe and secured

Data transfer will be encrypted for security

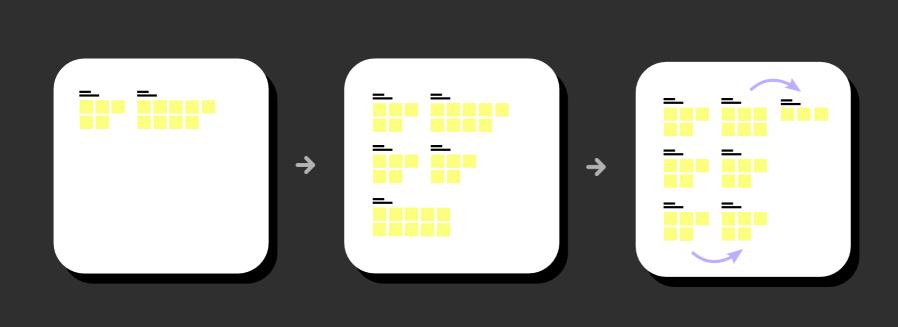

only the
assigned doctor
should be able
to view their
patient's details

MONITORING

Constant monitoring of a person

of medications available and alerting if not

Doctors and mentors are given special access to users data in order to anaylse them better ang give consultation

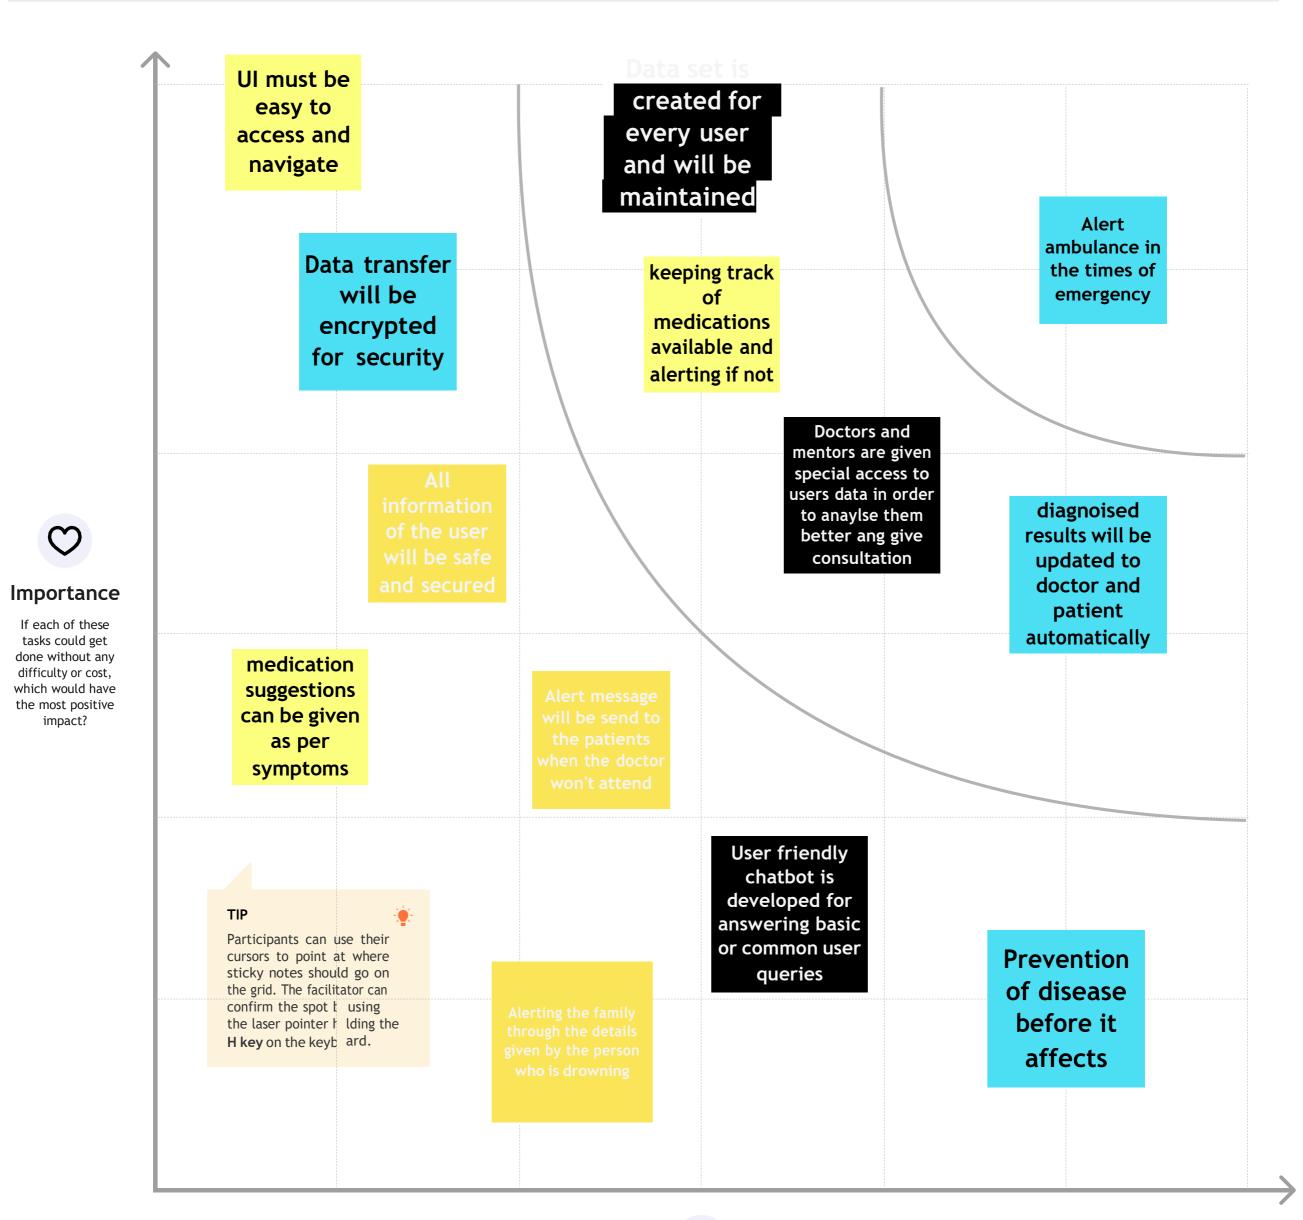

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

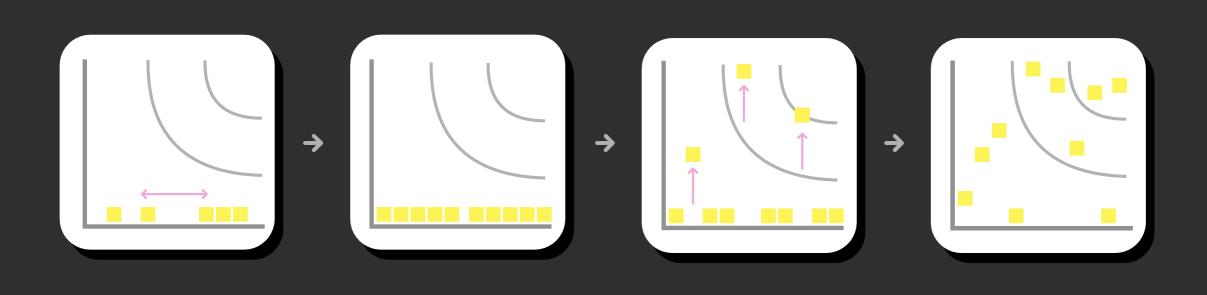

→ 20 minutes

Feasibility

Regardless of their importance, which tasks are more feasible than others? (Cost, time, effort, complexity, etc.)

After you collaborate

You can export the mural as an image or pdf to share with members of your company who might find it helpful.
